CAREER OBJECTIVE

I am eager to obtain a position in the yachting industry where I can further my deck experience. I am confident in my knowledge gained as a Mate upon a 30' motor yacht during a busy charter season. My knowledge of technical maintenance with engines will allow me to be an asset to any yacht. Having been an Airplane Pilot for over 3 years, it taught me leadership, responsibility, and the ability to make quick decisions, which will come of value in a fast-paced yachting position.
